ERASURE CERTIFICATE

01928c3e-5a1b-7000-8000-000000de4007

Issued 2026-10-05 00:00:00 UTC

Disphas

Recommended future: physical destruction

STORAGE DEVICE

Model	DEMO HDD 4TB
Serial number	DEMO-HDD-8C21
Firmware	DEMO01
Capacity	4,000,787,030,016 bytes (4,000.7 GB)
Type	SATA-HDD
Identifiers	WWN 5000c500deadbeef

SANITIZATION

Category	Purge
Method	ATA Sanitize, Overwrite (AtaSanitizeOverwrite)
Standards	NIST SP 800-88r2, IEEE 2883-2022
Firmware verification	passed
Validation	canaries, 1,000 samples, passed

FUTURE AND RESERVES

Recommended future	Physical destruction recommended High reallocated sector count (D4)
Reserves	Uncorrectable errors reported (R6)

ISSUER

Organization	Atelier XYZ
Operator	OP-042
Tool	disphas 0.1.0 · rules 1.0.0
License	DEMO-0001 — disphas — démonstration (Demo)

signature Ed25519

Attestation fingerprint 2eda 0d84 3962 74ff 9b70 6ca4 4b0c 9c78

Scan the QR code or run disphas-verify to check this certificate offline. The PDF is only a rendering: the signed attestation is the proof.

TECHNICAL ANNEX

Values needed to replay the validation and to audit the attached journal.
