ERASURE CERTIFICATE

01928c3e-5a1b-7000-8000-000000de400a

Issued 2026-10-05 00:00:00 UTC

Disphas

Recommended future: physical destruction

STORAGE DEVICE

Model	DEMO HDD 4TB
Serial number	DEMO-HDD-8C21
Firmware	DEMO01
Capacity	4,000,787,030,016 bytes (4,000.7 GB)
Type	SATA-HDD
Identifiers	WWN 5000c500deadbeef

SANITIZATION

Category	Clear
Method	Host overwrite, one pass of a pseudo-random stream (HostOverwrite)
Standards	NIST SP 800-88r2, IEEE 2883-2022
Firmware verification	passed
Validation	pattern read-back, 1,000 samples, passed
Finish	final pass of zeros, validated

FUTURE AND RESERVES

Recommended future	Physical destruction recommended High reallocated sector count (D4)
Reserves	Uncorrectable errors reported (R6) Host write: reallocated sectors not covered (R7)

ISSUER

Organization	Atelier XYZ
Operator	OP-042
Tool	disphas 0.1.0 · rules 1.0.0
License	DEMO-0001 — disphas — démonstration (Demo)

signature Ed25519

Attestation fingerprint c238 5bb3 c0a4 3f3a c623 ef47 17c8 177a

Scan the QR code or run disphas-verify to check this certificate offline. The PDF is only a rendering: the signed attestation is the proof.

TECHNICAL ANNEX

Values needed to replay the validation and to audit the attached journal.
