ERASURE CERTIFICATE

01928c3e-5a1b-7000-8000-000000de4005

Issued 2026-10-05 00:00:00 UTC

Disphas

## STORAGE DEVICE

| | |
|---|---|
| Model | DEMO NVMe Data 2TB |
| Serial number | DEMO-NVME-4567 |
| Firmware | DEMO01 |
| Capacity | 2,000,398,934,016 bytes (2,000.3 GB) |
| Type | NVMe |
| Identifiers | EUI-64 0011223344556677 |

## SANITIZATION

| | |
|---|---|
| Category | Clear |
| Method | Host overwrite, one pass of a pseudo-random stream (HostOverwrite) |
| Standards | NIST SP 800-88r2, IEEE 2883-2022 |
| Firmware verification | passed |
| Validation | pattern read-back, 1,000 samples, passed |

## FUTURE AND RESERVES

| | |
|---|---|
| Recommended future | Reuse |
| Reserves | Host write: reallocated sectors not covered (R7) |

## ISSUER

| | |
|---|---|
| Organization | Atelier XYZ |
| Operator | OP-042 |
| Tool | disphas 0.1.0 · rules 1.0.0 |
| License | DEMO-0001 — disphas — démonstration (Demo) |

signature Ed25519

Attestation fingerprint cb5e b8d3 f433 eeff 538b bee9 d597 904e

Scan the QR code or run disphas-verify to check this certificate offline. The PDF is only a rendering: the signed attestation is the proof.

TECHNICAL ANNEX

## Values needed to replay the validation and to audit the attached journal.
