oblivio

Erasure certificate

Report `01928c3e-5a1b-7000-8000-000000de4008`
Issued 2026-10-05 00:00:00 UTC

COMPLIANT
Erasure proven and certified

Recommended future: physical destruction

Storage device

Model	DEMO HDD 4TB
Serial number	`DEMO-HDD-8C21`
Firmware	`DEMO01`
Capacity	4,000,787,030,016 bytes (4,000.7 GB)
Type	SATA-HDD
Identifiers	`WWN 5000c500deadbeef`

Sanitization

Category	Purge
Method	ATA Security Erase, enhanced (AtaSecurityEraseEnhanced)
Standards	NIST SP 800-88r2, IEEE 2883-2022
Firmware verification	passed
Validation	canaries, 1,000 samples, passed

Future and reserves

Recommended future	Physical destruction recommended High reallocated sector count (D4)
Reserves	Uncorrectable errors reported (R6)

Issuer

Organization	Atelier XYZ
Operator	OP-042
Tool	Oblivio 0.1.0 · rules 1.0.0
License	DEMO-0001 — Oblivio — démonstration (Demo)

Attestation fingerprint
`a7cd dd02 4619 ada8 fc88 af8c 5ecc ee82`

Scan the QR code or run oblivio-verify to check this certificate offline. The PDF is only a rendering: the signed attestation is the proof.

Technical annex

Values needed to replay the validation and to audit the attached journal.
